**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

### Information Disclosure Statement

1. The prior art documents submitted by applicant in the Information disclosure Statements filed on 4/27/07 has been considered and made of record (noted attached copy of form PTO-1449).

### Claims Rejection Under 35 USC - 103

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1, 4-6 and 15-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over **Swab et al** (6,769,767) in view of **Kallman et al** (5,455,637).

Swab et al discloses eyewear with exchangeable temples housing a transceiver forming AD HOC networks with other devices comprises a computer, a bracelet and a telephone having a transceivers mounted on them (see figures 1, 3-8, abstract and the related disclosure).

Swab et al does not disclose a case for charging the battery and a rechargeable battery.

Kallman et al, however, discloses a case for charging the battery and a rechargeable battery (see figures 1, 2, 5 and the related disclosure.).

Art Unit: 2873

Because Swab et al and Kallman et al are both from the same field of endeavor, the purpose for convenient recharging of the battery as disclosed by Kallman et al would have been recognized as an art pertinent art of Swab et al.

It would have been obvious, therefore, at the time the invention was made to a person having skill in the art to construct the eyewear system, such as the one disclosed by Swab et al, with a case for charging the battery and a rechargeable battery, such as disclosed by Kallman et al for the purpose for convenient recharging of the battery.
